

Product Descriptions

100 Words

Autodesk® Moldflow® Adviser injection molding simulation software provides wizard-based tools to help validate and optimize plastic part, injection mold, and tool designs before manufacturing begins. Intuitive to learn and use, Autodesk Moldflow Adviser software guides designers, mold makers, and engineers with advice on potential manufacturing defects and suggestions on corrective action. Part of the Autodesk solution for Digital Prototyping, Autodesk Moldflow Adviser software helps manufacturers discover, communicate, and resolve problems earlier in the product development cycle which reduces the number of costly physical prototypes required to design plastic parts and gets innovative products to market faster and with greater confidence.
